We herewith submit our Eighteenth Annual Report of the receipts and expenditures of the Town of Camden, Maine, for the fiscal year ending March 1, 1909.

You will note our net indebtedness is \$4,000 more than in 1908. The vote of the town at the last annual meeting for the sewers on Belmont avenue and Pearl street caused \$1,850 of the amount and the steam roller \$2,100.

We have recommended an appropriation on the Highway Dept. the sum of \$5,800. Of this amount \$600 is to be set apart for the state road account as provided for by the statutes and \$200. at least, to repair Spring brook bridge—leaving \$5,000 for the general work.

As the walk from the gulley on Chestnut street to top of the hill and on Limerick street, from Bay View to Chestnut street is very poor and unsafe we recommend this be made good with concrete.

We also recommend that the town take advantage of the State Road Act whereby the State pays \$671.72 of the expense of building same and getting therefor permanent work.

Art. 34, for a surface water sewer on Union street we recommend that the sewer be built from the Belmont avenue sewer to the catch basin near the residence of P. G. Willey, thus providing for the large amount of surface water and to do away with the disagreeable feature of back flowage in cellars of the residents in times of excessive rains.

If the present Legislature does not increase our State Tax and the County Tax is no more than last year, the present rate of \$18.80 per \$1000 can be maintained, providing the amount of appropriations is not more than recommended by our board. However the voters must remember that the tax rate is governed by the amount appropriated and not by the municipal officers.

If the amount of taxes as uncollected in list of unpaid should not agree with the account of amount due from the collector, in treasurer's report, the difference will be the amount received by the collector after his settlement with the treasurer.

The foregoing accounts are a true statement, according to

our best knowledge and belief.

JOSIAH H. HOBBS,	}	Selectmen of Camden.

Superintendent's Report.

To the members of the School Board :

The Camden Schools have had a very successful year and I make this my fifth annual report with a feeling of deep obligation to the members of the Board and citizens for their loyal support and to the teachers for their earnest and conscientious labors during the five years that I have been Superintendent. The past year has been one of the pleasantest and most successful of the five.

As I mentioned in last year's report, our greatest need at present is expert superintendence and I trust that our efforts this year, to unite with another town for district superintendence, will be successful. The school board of Thomaston is very anxious to have Thomaston and Camden unite and our school board is also unanimous in favor of such an arrangement. The towns are well suited to such a union and in many respects these two towns would make an ideal district.

Again let me recommend the adoption as soon as possible of some system of manual training. Along other lines of school work we are well up with the larger cities and towns but in this matter we are behind. A move should be made in this direction the coming year and our larger allowance of school money from the state under the law passed two years ago, will furnish ample funds for the beginning of such a system.

Another matter I think should be taken up, is that of systematic medical inspection of our scholars. It would not be expensive and there is no doubt that much good would be accomplished. Observation of school children for the past few years has convinced me that many children suffer from various troubles, eyes, ears and throat, unknown for some time by either teacher

or parents. Strict medical inspection would discover these troubles and in most cases remedy them before the child suffers permanent injury.

TEACHERS

The principal changes in the teaching force this year has been in the High School, three out of the four teachers being changed the past year. Mr. Gardner became principal in place of Mr. Leonard. Miss Montague takes Miss Plummer's place, who resigned on account of ill health, and Miss Purington takes Mrs. Frohock's place as she moved away. Our High School teachers are doing fine work this year and have the full confidence and respect of the students. In the grade work Miss Harrington resigned to become a bride as did also Miss Mann, our music teacher. Miss Pullen takes Miss Harrington's place as assistant in the Grammar school and her place in the seventh grade is taken by Miss Cassens. Mrs. Pooler takes Miss Mann's place as music teacher. The teachers have all worked hard. They are conscientious, interested and enthusiastic and best of all they are growing in their work, striving always to better themselves and improve their schools. The school board should show their appreciation of the work being done by our teachers by making a general advance in salaries the coming year.

THE HIGH SCHOOL

We were fortunate in securing the service of Geo. R. Gardner this year as Principal of our High School and he is doing fine work in building up our school and interesting the students in their work. His assistants are working hard and in entire sympathy. The school is now the largest in its history registering 103. Principal Gardner's report is given herewith :

THE HIGH SCHOOL.

Camden. Me., Feb. 26, 1909.

To J. H. Ogier, Supt. of Schools :

The High School opened September 21 with 90 pupils; others entered during the term making the total attendance at

the close 103, 55 boys and 48 girls. These figures are the same at present, although during the winter term two boys have entered and two have left school.

The intelligence and common sense of the student body deserve mention. The students have regulated their own discipline for the most part and have been very ready to respond to suggestions for making the school work more effective.

This year's graduating class will be twenty-one, the largest in the history of the school. Ten of these will enter New England colleges.

There are certain improvements in the equipment of the school which are needed immediately. The Assembly Hall on the third floor cannot be utilized because there is no provision for heating. This room will be used next year, not merely for entertainments and lectures and other school functions, but will be necessary for class work. It should be equipped with twelve substantial tables and chairs for the laboratory divisions of Physics and Physical Geography. The size of the present laboratory is inadequate for the large classes of the science department. While Chemistry can be taught under this condition, Physics and Physical Geography cannot. In Chemistry all the students can do the same experiment at the same time without reasonable expense, but, as many of the experiments of Physics and Physical Geography require expensive apparatus, the laboratory work is necessarily individual.

In the Science Department some good weather instruments and maps are needed. It would be desirable also to purchase additional apparatus for teaching light and electricity. With what apparatus the school already has, an expenditure of \$200 to \$300 would give a science equipment equal to that in the best schools.

An immediate need of the school is an additional teacher. It is necessary now to unite the seniors and juniors in Latin and Science; and to unite the sophomores and freshmen in Science and History. Virgil, Cicero, Chemistry, Physics, Physical Geography, Botany, Ancient History and Modern History are by this

arrangement given but once in two years.

Chemistry and Physical Geography ought to be taught every year. The United States Departments of Agriculture, Forestry and Chemistry publish monthly bulletins of valuable information which can be used in making these subjects of more than ordinary interest and utility.

German ought to be introduced into the school as several New England colleges require German as well as French and Latin for students who are candidates for the B. A. Degree.

Courses in Banking and Economics should be introduced next year. The Commercial Department is well established and is proving of practical benefit to the students. The addition of these courses would increase the value of the department.

Another teacher would make these additions possible and do away with the union of classes that at present gives too large a number for the best results.

It may not be out of place in this report to suggest some lines in which the school might progress. Camden has yet to reach its full prosperity ; judging by its past generosity, as it becomes more prosperous it will want to give its schools all that is possible. It is likely then, before many years that the town will consider a building for manual training, making provisions for a carpenter shop and rooms for cooking and other lines of household economy. The cities of this state which have established this most practical sort of education, find that it reaches and helps a class of students who are not well developed by the regular work of the school room. It would be desirable to combine in this building a gymnasium, suitable for holding exhibition games of the school. This gymnasium if properly equipped might be used by the townspeople as well as by the students, and thus fill a two-fold need.

The school has been fortunate in obtaining capable and efficient assistant teachers. I wish to thank them for their interest in the school. I appreciate the strong support and kind encouragement that I have received from the superintendent and

school committee.

Respectfully submitted,

GEORGE R. GARDNER.

SCHOOL FINANCES

Practically the only school account overdrawn this year is the repair account. The school board, after an examination of the Elm street building, decided that the stairways were in a dangerous condition in case of fire and your superintendent was advised to have them made safe. This was done by building a brick wall across the basement, separating the toilet rooms from the furnaces, a brick wall was built around the stairway well and new stairways put in finished so that they are fire proof from underneath. In case of fire the stairways would be the safest place in the building. An iron fire escape was put on the High School building, all outside doorways in both buildings have been made to open outward. We can see nothing that can be done to make these two buildings safer in case of fire than they are now.

In the common school account we do not need so much money as last year, but in the other appropriations we recommend practically the same.

The following is a summary of school expenditures for the year :

CONCLUSION

There seems to be but little on either of our school buildings that need to be done the coming year. Of course more or less painting will be necessary and in two rooms in the Elm St. building new seats will be needed. Steam radiators should be placed in the room recently finished off on the third floor of the High School building and some new physical apparatus will be needed for next year's classes.

As I said in opening, our schools are doing excellent work, but parents and citizens should bear in mind that the best work is done when they take an active interest in the work of the scholars and show by frequent visits they are keeping in close touch with the school work.

Let us remember that our educational system is really the most important department of our municipal work and all work together to make our own schools the best possible.

Respectfully submitted,

J. H. OGIER.

TOWN WARRANT.

STATE OF MAINE.

KNOX, ss.

To Chas. F. Duffy, a constable of the town of Camden, in the County of Knox.

GREETING:

In the name of the State of Maine you are hereby requested to notify and warn the inhabitants of the said town of Camden qualified by law to vote in town affairs, to assemble at the Corporation Hall, in said town, on Monday the eighth day of March, A. D., 1909, at 9 o'clock in the forenoon to act on the following articles, to wit:

ARTICLE 1. To choose a moderator to preside at said meeting.

ART. 2. To choose a town clerk for the ensuing year.

ART. 3. To hear and act upon the reports of the Selectmen and other town officers.

ART. 4. To choose three, five or seven Selectmen, Assessors and Overseers of the Poor, School Committee, Road Commissioner, Treasurer and all other necessary Town Officers, for the ensuing year.

ART. 5. To see if the town will vote to elect a committee of citizens, representing all sections of the town, said committee to include the Selectmen, Treasurer, Superintendent of Schools, which committee shall investigate and consider all parts of the warrant, especially those calling for appropriations, make recommendations concerning each and submit a report to said committee in session, prior to the next annual Town Meeting, 1910.

ART. 6. To see what sum of money the town will vote to raise for the repair of roads, bridges and sidewalks for the ensuing year, and how the same shall be raised.

ART. 7. To see what sum of money the town will vote to raise for breaking roads and removing snow from sidewalks for ensuing year, and how the same shall be raised.

ART. 8. To see what sum of money the town will vote to raise for the support of poor for the ensuing year, and how the same shall be raised.

ART. 9. To see what sum of money the town will vote to raise to defray incidental expenses for the ensuing year, and how the same shall be raised.

ART. 10. To see what sum of money the town will vote to raise for the support of Common Schools for the ensuing year, and how the same shall be raised.

ART. 11. To see what sum of money the town will vote to raise for the repair and insurance of school houses, and how the same shall be raised.

ART. 12. To see what sum of money the town will vote to raise for the purchase of school books for the ensuing year, and how the same shall be raised.

ART. 13. To see what sum of money the town will vote to raise by assessment, for a Free High School for the ensuing year.

ART. 14. To see what sum of money the town will vote to raise by assessment, to pay the interest on town debt.

ART. 15. To see what sum of money the town will vote to raise, by assessment, to pay on the town debt.

ART. 16. To see what sum of money the town will vote to raise by assessment, to pay the expenses of the fire department for the ensuing year.

ART. 17. To see what sum of money the town will vote to raise by assessment, to pay for services of firemen for the ensuing year.

ART. 18. To see what sum of money the town will vote to raise by assessment, to pay the C. & R. Water Co., for use of hydrants for the ensuing year.

ART. 19. To see what sum of money the town will vote to raise by assessment, for street lights for the ensuing year.

ART. 20. To see if the town will vote to raise, by assessment the sum of fifty dollars to help pay the expenses of Geo. S. Cobb Post G. A. R., Memorial Day.

ART. 21. To see if the town will vote to employ a night watch, how the same shall be chosen and how much money it will vote to raise by assessment to pay for same.

ART. 22. To see what sum of money the town will vote to raise by assessment for the Camden Public Library.

ART. 23. To see what sum of money the town will vote to raise by assessment to pay outstanding bills.

ART. 24. To see what sum of money the town will vote to raise by assessment, to pay for care of cemetery for the ensuing year.

ART. 25. To see if the town will vote "yes" or "no" upon the adoption of the provisions of Chapter 112, of the Public Laws of Maine, for the year 1907, relating to the appropriation of money necessary to entitle the town to state aid for highways for the year 1909.

ART. 26. To see if the town will raise, appropriate and set apart for the permanent improvement of the main highways within the town, such sum of money as is contemplated and directed by Sec. 5, of Chap. 112, of the Public Laws of Maine.

ART. 27. To see what sum of money the town will vote to raise by assessment for concrete walks for the ensuing year.

ART. 28. To see what sum of money the town will vote to raise for state road for the ensuing year, and how the same shall be raised.

ART. 29. To see what sum of money the town will vote to raise by assessment for extermination of brown tail moth.

ART. 30. To see if the town will vote to build a sewer on Bay View street from the residence of Ralph E. Richards to connect with Limerock street sewer, what sum of money it will vote to raise for said purpose and how the same shall be raised.

ART. 31. To see if the town will vote to sell the building known as the "brick schoolhouse" on Mountain street to the Megunticook Grange.

ART. 32. To see if the town will vote to pay the Camden Band Two Hundred Dollars, same to be paid from the Incident-al Expense account.

ART. 33. To see if the town will vote to place an electric light in Tannery Way what sum of money it will vote to raise for said purpose and how the same shall be raised.

ART. 34. To see if the town will vote to build a surface water sewer on Union street and a part of Belmont ave., in said town, beginning at Virginia avenue and discharging into Belmont avenue sewer, so as to keep the surface water from the Union street sewer and to see what sum of money the town will vote to raise for said purpose, and how the same shall be raised.

ART. 35. To see if the town will vote to build a catch basin at corner of Sand and Washington streets and connect same with Megunticook river by crossing land of Camden Woollen

Co., and passing under said mill, what sum of money it will vote to raise for said purpose and how the same shall be raised.

ART. 36. To see if the town will vote to build a sewer, beginning at the catch basin near residence of F. L. Kennedy and continue through Mountain, Grove and Washington streets to the Megunticook river or brook near residence of Andrew Scott and provide for the disposal of the large amount of surface water coming into Mountain street and sewerage for the abutters on said route, what sum of money it will vote to raise for said purpose and how the same shall be raised.

ART. 37. To see if the town will vote to grade the hill on Grove street, what sum of money it will vote to raise for said purpose and how the same shall be raised.

ART. 38. To see if the town will vote to extend the bridge, blast out the ledge and widen the road at the foot of Sheldon's Hill, what sum of money it will vote to raise for same and how the same shall be raised.

ART. 39. To see if the town will vote to extend Mountain street sidewalk from the residence of C. K. Hopkins to the residence of J. W. Gould, a distance of 125 rods, what sum of money it will vote to raise for said purpose and how the same shall be raised.

ART. 40. To see if the town will vote to authorize its Superintending School Committee to join with Thomaston for the purpose of employing a Superintendent of Schools in accordance with the provisions of Section 40 to 45 inclusive, of Chap. 15, of the Revised Statutes.

ART. 41. To see if the town will vote to build a gravel walk on Chestnut street from the present terminus on Judson Hill and connect with the walk now laid in Rockport to the Camden and Rockport town line, what sum of money it will vote to raise for said purpose, and how the same shall be raised.

ART. 42. To see if the town will vote to build a concrete walk on Limerock street from Bay View street to Chestnut street, what sum of money it will vote to raise for same and how the same shall be raised.

ART. 43. To see if the town will vote to build a concrete walk on Chestnut street from near the residence of Henry Opici to the residence of Mrs. E. G. Parker to replace the old plank walk now existing, what sum of money it will vote to raise for said purpose, and how the same shall be raised.

ART. 44. To see if the town will vote to place a hydrant at or near the residence of Gilbert Young, what sum of money

it will vote to raise for said purpose and how the same shall be raised.

ART. 45. To see if the town will vote to place a hydrant at corner of Park and Mechanic streets, what sum of money it will vote to raise for said purpose, and how the same shall be raised.

ART. 46. To see if the town will vote to accept the jury list as revised by the Selectmen.

ART. 47. To see if the town will vote to purchase a road machine, what sum of money it will vote to raise for said purpose and how the same shall be raised.

ART. 48. To see if the town will vote to build a plank sidewalk on Highland Road from Chestnut street to residence of H. P. Bush, a distance of about 320 feet, what sum of money it will vote to raise for same and how it shall be raised.

ART. 49. To see if the town will vote to build a plank or concrete walk on Ocean avenue from the present plank walk to near Orchardside Cottage, what sum of money it will vote to raise for same and how it shall be raised.

ART. 50. To see if the town will vote to place two electric lights on Ocean avenue, one near the residence of Mrs. Mary Ott and one near Orchardside Cottage, what sum of money it will vote to raise for said purpose and how the same shall be raised.

ART. 51. To see if the town will vote to accept Branch street as laid out by the Selectmen.

ART. 52. To see if the town will vote to build a sidewalk from the residence of Geo. B. Phelps to the residence of Mrs. Emily Morris, what sum of money it will vote to raise to pay for same and how the same shall be raised.

ART. 53. To see if the town will vote to give the Hosmer Pond privilege to the State for a fish hatchery if the Fish and Game Commissioners will locate one here.

ART. 54. To see if the town will vote to build a catch basin at corner of Mechanic and Willow streets and connect same with the surface water pipe emptying into the river, also to extend said surface water pipe into the river with iron pipe, what sum of money it will vote to raise for said purpose and how the same shall be raised.

ART. 55. To see if the town will vote to accept One Hundred Dollars of the estate of E. Franklin Moody to be held in trust, the income to be spent in the care of his lot at Mountain street cemetery.

The Selectmen give notice that they will be in session at the Selectmen's Office from 10 a. m. to 11.30 a. m. and from 2 p. m. to 4.30 p. m. on Saturday, March 6, 1909, for the purpose of correcting the list of voters.

Given under our hands this 26th day of February, A. D., 1909.
